YONGE FOREVER NING E

Full of life and forever young, there are few more iconic streets in the world than Yonge Street. Long recognized as one of the world's longest streets and the heart of Toronto, this is a conduit to an exciting experience revered for its diversity. In a unique way, Yonge Street is the bond that connects and defines our city as a beautifully unique mosaic enhanced by a collection of distinctive cultures and lifestyles.

As diverse as Yonge Street may be, it is a link between Canada's history and its future. From the many great moments where Torontonians gather to partake in parades, spontaneous street take-overs often celebrating the city's milestones, Yonge street resounds with a modern hum of a city on the grow, Yonge Street is the virtual soul of the city. Over its 200 years and 1896 kilometers, Yonge Street continues to experience an extraordinary evolution. Old shops give way to upscale boutiques, exciting new cultural and aesthetic structures grow and change while the streetscape is dotted with ever changing style of bars and restaurants, from pop ups, to world-class gourmet fare. The excitement that is Yonge Street provides an ever-changing kaleidoscope of fashion, entertainment, excitement and culture and now it's yours to call home.

THE NEWEST JEWEL TO SPARKLE ON YONGE.

Captivating the Richmond Hill skyline, 8888 is a testament to the builder's art. Modern yet inviting this is a lifestyle destination that simply cannot be ignored.

Location is everything and when a location is as iconic as Yonge Street, it's more than a street, it's a way of living. Rich and vibrant with a cosmopolitan vibe, this is 24/7 living that offers an enviable cachet where you are connected to the core of where everything happens.

A Conversation with Space

There is an art to architecture. The creative embodiment of space blending iconic angles with diverse dimensions in a cadence that forms an emotional connection to breathtaking luxury.

NORTHGRAVE
ARCHITECTS

Inspired to reflect the vibrant energy of Yonge Street and connection to the beautiful Richmond Hill community, we spoke to Paul Northgrave, Principal Architect at Northgrave Architects and Sam Viola, Senior Landscape Architect of Strybos Barron King capture their inspiration for this unique new expression in modern living.

WHAT 3 WORDS WOULD YOU USE TO DESCRIBE THE "PERSONALITY" OF THIS BUILDING.
Iconic. Powerful. Striking.

WHAT WAS YOUR DESIGN INFLUENCE/INSPIRATION FOR 8888?
I wanted something to break through and truly define the Richmond Hill skyline. A creative expression that took a sculptural, articulated form featuring dramatic composition and transformative lines. My inspiration, in fact came from Medieval fortress towers, but reinvented to reflect modern times.

HOW DID YOU CAPTURE THIS DESIGN AESTHETIC?
Our vision began with a heavily articulated shape featuring juxtaposed proportions to create a sense of surprising rhythm.

Balconies became an artistic expression, creating movement and dimension in a dramatic façade with protruding and recessing patterns. Like an abstract dance of undulating space, some punched-out and framed in masonry, with others modernly encased in translucent glazed glass to elevate the dynamism of the façade.

The podium is poised on pronounced stone columns, meeting on the corner to give rise to a slender tower of glass soaring into the sky, adding distinction to the contemporary massing at roof level. At street level, live/work units invite visual interest with defined entrance doors adding to the continuation of the neighbourhood, while abundant retail frames the podium bringing varied convenience home.

STRYBOS
BARRON KING

WHAT WENT INTO YOUR INSPIRATION WHEN DESIGNING THE EXTERIOR SPACE AT 8888?

It's a combination of location context, architectural expression and the varied uses of the space. It's finding a balance between contemporary materials, dynamic forms and colours to not only complement the space but highlight its energy.

WHAT IS YOUR PHILOSOPHY ON BLENDING NATURE WITH URBAN SPACE?

Landscaping design is more than simply adding plants. The art is motivated by both purpose and creativity. It must be innovative, functional and of course aesthetically pleasing. We aim to maximize the amount of greenery on the project by "softscaping", finding places to enhance the concrete, bricks and stones. For 8888, we used deciduous trees, shrubs, decorative grasses and perennials to buffer, screen, shade and beautify the landscape environment.

Come home to a lavish social lounge-style lobby with soaring 17' ceilings and a dedicated 24-hour concierge. Convenience is around every corner beginning with a connected Co-Work Studio, Pet Spa and The Dream Room, a creative play area specially designed for kids.

MAKING A GRAND ENTRANCE

MEANS MAKING THE ENTRANCE GRAND

Featuring sweeping tray ceilings and a massive bronze sculpture over the awe-inspiring fireplace, the lobby at 8888 takes inspiration from the worlds of architecture, fashion and modern art. Bronze pillars glow to frame a semi-formal conversation area while geometric panels warm and define the space. This is lobby created to welcome visitors and to make a statement by employing a palate of subtle colour that soothes the soul and says: "You have arrived".

THE NEW NOW

neutrals

Straight from the pages of the design world, today's hottest decorating trends suggest "slathering rooms in icy, aloof shades of gray and beige." Hectic schedules plus nonstop technology have made the simple act of sitting down to talk to one another a lost art. But we want the intimacy back, says Karen Wolf, creative principal at Karen B Wolf Interiors in New Jersey. So we're seeing sofas, settees, and chairs become more curvaceous and comfy.

Both brass and wood have returned to create a comfortable, natural atmosphere with special attention to backlit brass columns and faux wood covered walls. It's all part of a general return to the coziness and warmth that we seek to create resulting in living spaces that are welcoming.

Or take a step back in time at the Richmond Hill Heritage Centre showcasing the city's history and significant artifacts from the early 19th century to the present.

Craving a bit of nature? Take a little walk in the park. The Oak Ridges Moraine invites you to find your path along 160 kilometers stretching along the Niagara Escarpment in the west to the headwaters of the Trent River in the east. Wander through rolling hills, forests, meadows, wetland, ponds, river valleys and lakes with a good chance to spot rare and protected animal species. ONE *on* ONE

— KELLY CRAY / U31 —

There's an intrinsic essence you feel when you walk into a space. It defines a level of luxury, of comfort and makes you feel at home.

WHERE DO YOU GET YOUR INSPIRATION FOR INTERIOR SPACE?

Living in such a diverse city as Toronto sparks my imagination. Being a curious person, I find many things in my daily routine that captures my interest. I also love travelling, which is always inspirational. Social media/technology has allowed me access to global trends which also influences my approach and aesthetic.

DO YOU HAVE A SIGNATURE DESIGN STYLE?

I have a personal style as most people do, but as for a studio 'signature look' goes, I don't think we have one. Our portfolio runs the gamut from contemporary to traditional, and everything in between. We approach each project with fresh eyes and encourage clients to engage in a dialogue with us. Ultimately, we aim to create designs that are tailored to the client's needs and desires.

WHAT WAS YOUR OVERALL VISION FOR 8888?

The overall vision is to create a sophisticated and timeless look with contemporary touches that would appeal to a broad demographic, while also conveying a relaxed luxury flavour that residents can embrace.

WHAT IS THE AESTHETIC THEME FOR 8888?

A look and feel that expresses a relaxed luxury through layers of natural materials, such as wood and marble, which most people respond to in a positive way. We then incorporated chic bronze architectural details to create a statement amongst comfortable contemporary forms, all within a neutral serene scheme keeping the environment warm and inviting.

IN VERTICAL COMMUNITIES, AMENITY SPACE IS AN EXTENSION OF RESIDENT'S LIVES. HOW DOES THE AMENITY SPACE AT 8888 INSPIRE PEOPLE TO LIVE?

There's an abundance of amenity space which allows residents to enjoy multiple recreational areas and activities. A co-working area adjacent to the main lobby is perfect for informal meetings or individual computer work, while the lobby lounge offers a relaxing place to catch-up on emails while residents wait for their Uber or cab. The 8th floor offers tranquility via yoga, fitness and social areas that foster interaction with other residents. The large terrace situated directly off the 8th floor, provides a seamless extension of this social lifestyle with comfortable seating and dining all within a serene palette.
